mitosis and cytokinesis. Mitosis

Chapter 10 Cell Growth and Division - UrbanDine

series of events in which a cell grows, prepares for division, and divides to form two daughter cells interphase peroid of the cell cycle between cell divisions in which the cell grows

Chapter 10 Cell Growth, Division and Reproduction ...

The larger a cell's volume, the more materials it needs to function and the more waste it creates. A cell's volume increases at a faster rate than its surface area. As a cell grows, its surface-area-to-volume ratio becomes too small. The larger a cell gets, the harder it is for enough materials to move across its cell membrane.
