October 14, 2019. Healthcare Effectiveness Data and Information Set (HEDIS) is the measurement tool used by health plans to evaluate their performance in terms of clinical quality including measuring well-child visits. For HEDIS well-child measures, please note that documentation in the patient’s chart is required for evidence of health education and anticipatory guidance.

What should I know about a well-baby check for my six-month-old child? Congratulations. Your infant is now 6 months old and developing into a little person. He or she is learning new motor skills and discovering the world around him or her. Developing hand-eye coordination is a big step for your baby, and starts with hand-to-mouth motions.
